

Home Learning Ideas – Week 13 Summer Term

Ideas inside blue boxes can be completed in the 'Home Learning Books'

Talk	Physical	Creative	Explore	Resources
Write down 4 words – can you tell a story using your 4 words? Here's four to start you off Bumble Bee - Jaffa Cake – Flap - Crash	Create a beach scene using tiny rolled up pieces of paper or tissue paper for the sand/pebbles and continuous pen lines for smooth or choppy waves. The rolling is good for little fingers and the pen waves can help with control.	Story Stones Cut out your favourite characters from magazines or printed pictures and paste (PVA glue over the paper) them to flat stones. Use them to create and recreate your own stories.	'Chatterpix' is an app that makes any photo talk. Why not draw a character, take a photo and make it speak. You could even do it with objects around the house. Why not give your fruit faces and make them sing!	Make a 'Calm Jar'. Fill a bottle with water, food colouring and glitter Secure the lid and shake it up. Watch the liquid settle. This can help if anxieties about change begin to grow.
Talk about how you've changed since starting school. What can you do now that couldn't last Summer? How do you think you'll change again in a year?	Collect a range of coins and other round objects. Can you get them to roll on their edge? How far can you get them to go? If you paint the edge you'll see their trail!	Find some props (hats, glasses, coats, capes), give yourself a crazy hairstyle and have an end of year photo shoot. If you can print them then stick them at the end of your Home Learning Book.	Keep a weather diary for the week. Keep track in the morning and in the afternoon. How does the sky and the temperature change?	Petals! Why not use up an old bunch of flowers, or collect some from your garden. You can create perfumes, dried images or petal art with what you collect.

Have a wonderful Summer Holidays
